

Suntherm high efficiency air handlers are designed to heat and cool your home quietly and efficiently. These units have been engineered with variable speed ECM blower motors and cabinets made of heavy gauge, rust resistant steel for durability. Suntherm high efficiency air handlers can be properly matched with various brands of condensing units to increase SEER and HSPF ratings resulting in greater energy savings.

MMVE HYDRONIC AIR HANDLERS

- Designed For Maximum Performance
- High BTU output at low water temperatures
- Ideal for Combi Systems
- 4-Way multiposition
- Variable speed ECM motor
- Pump Contacts
- Dry Contacts for boiler operation
- Pump Timer
- Dehumidification option
- Supports 2 stage outdoor units
- Electric heat options available

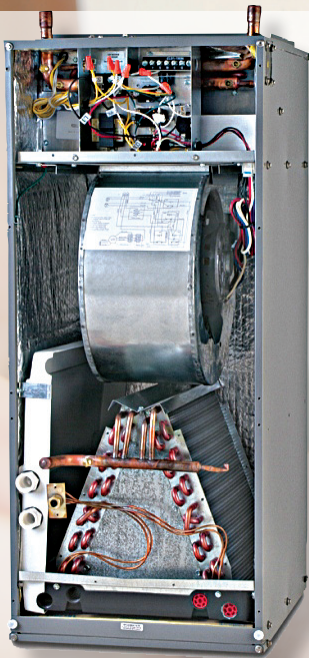

Model	Nominal Tons	Unit Dim (in) H x W x D	BTU Output (EWT)	
			140°F	180°F
MMVEOS	1.5 - 2.0	29 X 17.5 X 21	42,000	67,000
MMVEOM	1.5 - 3.0	29 X 21 X 21	56,000	90,000
MMVEOL	3.5 - 5	29 X 24 1/2 X 21 3/4	82,000	131,000

MSVE HYDRONIC/DX COOLING AIR HANDLERS

- 4-Way multiposition
- Variable speed ECM motor
- Contacts for pump
- Dry contacts for Boiler operation
- Factory installed TXV
- Electric heat option available
- Hot water / Chilled water option available

Model	Nominal Tons	Unit Dim (in) H x W x D	BTU Output (EWT)	
			140°F	180°F
MSVE242NA860DAA	1.5 - 2.0	43 x 17.5 x 21	26,000	41,000
MSVE363NA862DAA	2.5 - 3.0	48 x 21 x 21	44,000	70,000
MSVE484NA9E4YAA	3.5 - 4.0	58.75 x 24.5 x 21.75	67,000	106,000
MSVE604NA9E5YAA	5.0	58.75 x 24.5 x 21.75	75,000	119,000
